Introduction

Ukraine needs friends and needs them now!

Almost two million people have been driven from their homes by the conflict in eastern Ukraine—most of them with nothing but the clothes on their backs. They lack the basic necessities of life—food, clothing, medical supplies and personal hygiene items.

Unless they receive help, many of them will get sick. Some will die.

You can mobilize your congregation or community to provide desperately needed supplies by organizing an effort to fill at least one container with clothing, blankets, food or medical supplies.

You can create your own special mix, perhaps providing new sneakers for kids or ethnic food products you wish to share. One group filled its container with medicine and medical supplies; another with blankets. You may have connections with a “Big Box” store like Walmart, K-Mart, Costco, Home Depot or Lowes.

Most donations should be newly purchased. We can accept “gently used” clothes if they are clean and without holes. Perhaps, you can participate with a few of your friends, neighbors or co-workers. Filling a container requires commitment and working together towards a common goal. It goes beyond shopping at the nearest Walmart. We will work closely with you depending on your experience with relief organizations, but first-timers are especially welcome!

Every effort affects the participants in different ways, but we can guarantee you will never read the news in the same way again.

Please consider the quality and quantity of goods you wish to provide and forward the list to us. We will review it and make some suggestions based on input we receive directly from Ukraine’s Office of Presidential Administration. But whatever you finally give, you should abide in the gratitude of the people of Ukraine.
